

Nanjing Huadi Electric power Equipment Engineering Co., LTD.

Nanjing Huadi Electric Power Equipment Engineering Co., Ltd. is a Leading professional manufacturer of SWS system components. The company has a stable operating base (two self-owned production and office buildings), a full range of production equipment (including laser cutting, CNC machining centers, automated welding etc.), a highly efficient and dedicated team, and multiple patented technologies. It has consistently provided high-quality products to customers, earning widespread recognition and positive feedback in both domestic and international markets.

Ball valve assembly data sheet

Technical parameter

Model	BVA-V40-3N-F50-K-SS-C	BVA-V40-3N-F50-V-SS	BVA-V40-8NM-F50-V-SS
Ball valve Specification	DN40	DN40	DN40
Flange specification	2"150#	2"150#	2"150#
Install the electrode interface	3/4"NPTF	3/4"NPTF	1/2"NPTM
Insertion depth	0-150mm	0-150mm	0-150mm
Gran specification	M16*1.5	M16*1.5	M16*1.5
Material of the seal	FFKM	Viton	Viton
Material of the main body	SS316L	SS316L	SS316L
Cleaning function	YES	NO	NO
NOTE:	1、 The sensor interface can be customized as required (threaded interface, ferrule interface). 2、 The specifications of the process flange can be customized according to requirements. 3、 Insertion depth is available in options of 0-150mm and 0-300mm. 4、 The sealing material can be selected from perfluoroether and fluororubber. 5、 Special materials can be customized according to requirements, such as: 6 mo, inconel625, monel400, HC276, 2205, Ti, etc. 6、 Optional cleaning function.
